# V. JANANI

B.E. Computer Science & Engineering (Cybersecurity) | Final Year Student | Aspiring Security Engineer
Arunai Engineering College, Thiruvannamalai | vijayakumarjanani12@gmail.com
LinkedIn: Janani Vijayakumar | GitHub: github.com/JananiVijayakumar48

## PROFESSIONAL SUMMARY

Final-year B.E. Cybersecurity student with hands-on training in web application and Android security, and practical experience with Nmap, Wireshark, and Kali Linux. Building an AI-based, explainable detection system for phishing, smishing, and vishing in English, Tamil, and Hindi. Eager to apply security fundamentals, Python scripting, and AI-assisted tooling to help secure web applications and services as a Security Engineer Intern.

## TECHNICAL SKILLS

**Application & Web Security:** Web Application Security (hands-on training), Android Security, Phishing Analysis, Threat Detection, Risk Scoring, Cryptography & Network Security
**Security Tools:** Nmap (network scanning), Wireshark (packet analysis), Kali Linux
**Programming & Data:** Python (Basic), SQL (Basic)
**OS & Networking:** Linux (Basic), Networking Fundamentals (Basic)
**Emerging Areas:** AI/ML-based detection and explainable risk scoring; Cloud Computing (NPTEL); IoT Security (hands-on training)

## PROJECT

**AI-Based Multilingual Social Engineering Attack Detection System** *(Ongoing)*

- Developing an AI-based system to detect phishing, smishing, and vishing attacks, with Scam / Not-Scam classification in English, Tamil, and Hindi.
- Analyzes suspicious messages using persuasion cues, URL features, and risk scoring, and provides explainable reasons for each detection.
- Researching code-mixed and previously unseen attack patterns to improve real-world detection.

## INTERNSHIPS & VIRTUAL EXPERIENCE

**Data Analyst Intern** — GPTech Corp, Chennai *(1 Month)*

- Worked on a Reliance Retail Stock Analysis project, analyzing stock trends and preparing data-driven insights.

**Cybersecurity Analyst Job Simulation** — Tata Consultancy Services (TCS)

- Completed a virtual job simulation covering cybersecurity analyst tasks and workflows.

**Cyber Job Simulation** — Deloitte

- Completed a virtual job simulation covering cybersecurity consulting practices and client scenarios.

## EDUCATION

**B.E. Computer Science & Engineering (Cybersecurity)** — Arunai Engineering College, Thiruvannamalai | *CGPA: 8.27*
**Higher Secondary Education (12th)** — NLC Girls Higher Secondary School, Block 11, Neyveli | *78%*

## CERTIFICATIONS & TRAINING

- Web Security, Web Application and Android Security — Hands-on Training
- Cryptography and Network Security — NPTEL
- Cybersecurity Bootcamp: The Ultimate Beginner Course — Udemy
- Hands-on Training: IoT Based Security
- Cloud Computing — NPTEL
- Learn Blockchain and Cryptocurrency from Beginning — Udemy

## AREAS OF INTEREST

Application Security | Threat Detection | Network Security | Social Engineering Analysis | AI in Security
